# Many programs, limitless opportunities

Follow your passion and advance your career  
with a Master of Science in Nursing  
or post-master's certificate

Choose from a dozen specialties, including one of  
our many nurse practitioner programs, such as

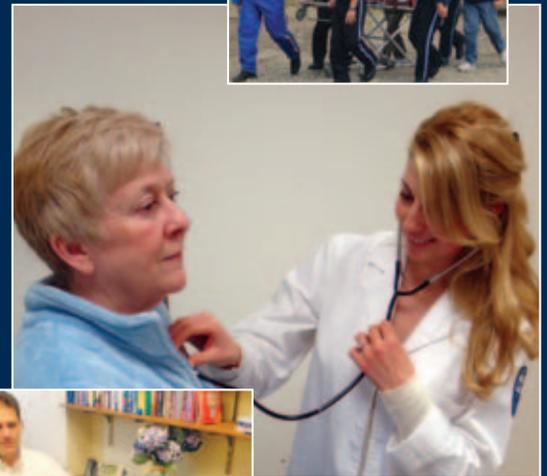

- adult-gerontology
- pediatric
- neonatal
- acute care
- flight nursing and more

Other areas of study include

- advanced oncology/palliative care (NP or CNS)
- family systems psychiatric mental health (NP or CNS)
- advanced public health
- nurse midwifery
- nursing informatics

Or blend MSN majors to create your own program.

Most programs are offered in part-time or intensive  
formats designed for working professionals.

## From RN to MSN

Get your MSN without having  
to get a BSN first! In just one year,  
the RN to MSN Bridge program will  
prepare you to enter our MSN program.

**Bertha Lovelace,**  
RN, CRNA  
*Board President*

**I am honored** to greet you after being re-elected President of the Ohio Board of Nursing at the November Board meeting. Also at the November meeting the Board re-elected Patricia Protopapa, LPN, as Vice-President, and elected Judith Church, RN, CNP, as the Board Supervising Member for Disciplinary Matters. Congratulations to each of them!

The Board appointed members and Chairs for the Advisory Groups. Chairs are Board Members Delphenia Gilbert, RN, Advisory Group on Continuing Education; Maryam Lyon, RN, Advisory Group on Dialysis; Judith Church, RN, CNP, Advisory Group on Nursing Education. Tracy Ruegg, RN, CNP, was appointed to serve on the Committee on Prescriptive Governance. Melissa Meyer, LPN, was appointed as the Education Liaison. The Education Liaison works with Board staff in the review of education programs. The Advisory Groups meet throughout the year to provide recommendations to the Board on various programs and issues.

The Board appointed members and Chairs for the Advisory Groups. Chairs are Board Members Delphenia Gilbert, RN, Advisory Group on Continuing Education; Maryam Lyon, RN, Advisory Group on Dialysis; Judith Church, RN, CNP, Advisory Group on Nursing Education. Tracy Ruegg, RN, CNP, was appointed to serve on the Committee on Prescriptive Governance. Melissa Meyer, LPN, was appointed as the Education Liaison. The Education Liaison works with Board staff in the review of education programs. The Advisory Groups meet throughout the year to provide recommendations to the Board on various programs and issues.

In November, the Board acknowledged the work and recognized the dedication of Anne Barnett, RN, who served eight years as a Board member and was the Board Supervising Member for Disciplinary Matters for the last two years. The Board wishes Anne well as her Board member term ends.

Lastly in November, the Board established a Board Committee on Education Program Rules to begin reviewing proposed revisions to Ohio Administrative Code Chapter 4723-5, the education program rules. The Committee will convene during the scheduled Board meetings in 2011. The public is asked to attend and participate in the discussion and provide comments. In addition to the

Committee, the Advisory Group on Nursing Education will also be reviewing Chapter 4723-5 at their meetings scheduled for 2011: February 17, June 9, and October 13. Please watch for information about the meetings.

You can receive information about the education program rule meetings on the Board web site at [www.nursing.ohio.gov](http://www.nursing.ohio.gov), through eNews, an announcement service distributed via email, and now, through Twitter and Facebook. Subscribe to all three via the Board web site! We invite you to sign up and keep informed about the Board activities throughout the year. •

1.877.582.2002

**As we move into 2011**, we are pleased to announce that Ohio has been chosen as one of the three states to participate in the NCSBN Transition to practice study. Please read about it in the NCSBN press release included in this issue. Looking back at 2010, the Board continued to excel in fulfilling our mission of patient safety and public protection. We recognize the thirteen Board members and the fifty-eight staff for their commitment and work throughout the year. Licenses and certificates were issued and renewed to qualified individuals; education and training programs were surveyed and approved; and licensees and certificate holders were disciplined and their practice monitored if they violated the Nurse Practice Act or administrative rules regulating practice. Highlights of our 2010 Annual Report are as follows:

- Regulated over 241,000 licenses and certificates, an increase from approximately 223,000 in 2008.
- Issued licenses by examination to over 12,930 applicants and licenses by endorsement to approximately 2,800 applicants.
- Regulated 9,010 certificates of authority for Certified Nurse Practitioners, Clinical Nurse Specialists, Certified Nurse Midwives, and Certified Registered Nurse Anesthetists, and 4,680 certificates to prescribe.
- Maintained certification of 1,680 dialysis technicians, 73 community health workers, and 94 medication aides.
- Audited the continuing education of nearly 3,000 registered nurses and provided oversight or re-approval to 10 Approvers of Continuing Education.
- Processed approximately 6,140 complaints.
- Took action on an average of 336 disciplinary cases at each Board meet-

**Licenses and certificates were issued and renewed to qualified individuals; education and training programs were surveyed and approved; and licensees and certificate holders were disciplined and their practice monitored if they violated the Nurse Practice Act or administrative rules regulating practice.**

ing and provided licensing and discipline data to national databases.

- Provided two alternative programs to discipline: the Alternative Program for Chemical Dependency (AP) and the Practice Intervention and Improvement Program (PIIP).
- Regulated 159 pre-licensure nursing education programs (86 registered nurse programs and 73 practical nurse programs). The Board determined that certain nursing education programs failed to meet or maintain requirements, and placed 6 programs on provisional approval status and notified 2 programs of the Board's recommendation to withdraw Board approval.
- Regulated 22 dialysis training programs, 3 community health worker training programs, and 19 medication aide training programs.
- Convened Board Committees on nursing practice issues, adopted Interpretative Guidelines to provide practice guidance, and, on a daily basis, responded to inquiries about nursing practice.
- Continued the nurse education grant funding totaling \$2,000,000 for the 2009-2011 grant cycle, to nursing education programs for the purpose

**Betsy J. Houchen,**  
RN, MS, JD  
*Executive Director*

of increasing their nursing student enrollments.

- Assisted the Ohio Board of Regents in administering the Nurse Education Assistance Loan Program to provide financial assistance to Ohio students as an incentive to become nurses or nursing faculty in Ohio nursing education programs. For the application period ending June 1, 2010, \$441,500 was awarded to applicants.
- Represented Ohio on the national level through 3 staff serving on or appointed to NCSBN committees, another staff member elected to the Leadership Succession Committee, and the Executive Director serving a second term on the NCSBN Board of Directors.

The number of licenses and certificates regulated by the Board continues to increase each year. Your Board of Nursing is the largest health care regulatory board in the State of Ohio, in terms of licensees and certificate holders regulated, and the sixth largest board of nursing in the United States! •

## Don't just make a living - MAKE A DIFFERENCE

As a nurse at Cincinnati Children's Hospital Medical Center, you will play a central role in improving the quality of life for children. While we are dedicated to providing the highest level of care to our patients, we are equally committed to providing our employees with an environment that supports their passion for making our hospital so special. We invite you to consider making Cincinnati Children's your career destination by exploring the following opportunities for:

- **Education Specialists**
  - Neuropsychiatry
  - Simulation Center
  - Hematology/Oncology
  - PICU
- **Advanced Practice Nurses**
  - Psych - C ICU (acute care)
  - NICU - Liver Transplant
  - PICU
- **Pheresis Manager**
- **Nurse Scientists**
- **Perioperative Coordinator Cardiothoracic Team**
- **OR scrub RNs**
- **PICU RNs**

**Our family-centered, state-of-the-art medical center offers support throughout every stage of your nursing career.**

As a member of our multi-disciplinary team, you'll be joining a strong, stable organization that offers an attractive salary and benefits package. In addition to specialized orientation for nurses transitioning from adult to pediatric care, relocation assistance is available to qualified candidates.

Please contact our Nursing Recruitment and Retention Team at 1-877-636-0219, email [nurses4kids@cchmc.org](mailto:nurses4kids@cchmc.org) or apply online at: [www.cincinnatichildrens.org](http://www.cincinnatichildrens.org).

# DEA Guidance Regarding the Role of Authorized Agents in Long-Term Care Facilities In Communicating Controlled Substance Prescriptions to Pharmacies

In the Winter 2010 edition of Momentum, the Board published an article alerting nurses to information from the federal Drug Enforcement Agency (DEA) regarding the handling of prescriptions for controlled substances in long-term care facility or similar settings. According to federal regulations (21 CFR 1306.05, 1306.21), only an “authorized agent” can communicate prescriptions to a pharmacy on behalf of the prescribing practitioner. The issue the DEA identified was that a nurse employed by a long-term care facility (LTCF) may not

Throughout 2010, the DEA has reviewed this issue and on October 6, 2010, published a Statement of Policy that nurses may rely upon when handling controlled substance prescriptions in long-term care settings...

be an “authorized agent” of a physician or other prescribing practitioner not also employed by the facility. Throughout 2010, the DEA has reviewed this issue and on October 6, 2010, published a

Statement of Policy that nurses may rely upon when handling controlled substance prescriptions in long-term care settings (see Federal Register/Vol. 75, No. 193, Wednesday October 6, 2010).

Sky's the Limit.

**SKY'S THE LIMIT AT BECKFIELD COLLEGE! CALL TODAY TO REACH YOUR CAREER GOALS!**

Tri-County Cincinnati, Ohio Campus: 513-671-1920  
Florence, Kentucky Campus: 859-371-9393  
admissions@beckfield.edu • www.beckfield.edu • Follow us on   
Programs vary by campus.

**BECKFIELD**  
COLLEGE

Beckfield College is a member of the National League for Nursing (NLN), approved by the Kentucky Board of Nursing (KBN), licensed by the Ohio State Board of Career Colleges and Schools (Reg. No. 08-05-1857T) and Kentucky Council on Post-Secondary Education and accredited by the Accrediting Council for Independent Colleges and Schools (ACICS).

### Agency Agreement

Central to this Statement of Policy is that a valid agency relationship must be established. This relationship must be documented through “affirmative actions” including a written authorization. The DEA provides a sample type of written authorization that would serve to document the agency relationship between the practitioner and the employer/contracting entity. The agreement should reference federal regulations concerning the methods of communication by the agent to the pharmacy for scheduled drug categories. For specific legal guidance in preparing a valid agency agreement, facilities and nursing staff should consult with legal counsel.

### Schedule III, IV or V Controlled Substances

If a valid agency agreement is in place, a nurse employed by a LTCF may serve as an agent for the prescribing practitioner in communicating prescriptions for schedule III, IV or V substances to a pharmacy either **by fax or orally**. The prescription must contain all of the information and meet all the requirements for a valid prescription (except, in the case of the oral transmittal, the signature of the prescriber). The

pharmacist receiving an oral prescription may have a legal obligation, depending on the circumstances, to inquire into the legitimacy of the prescription.

### Schedule II Controlled Substances

If a valid agency agreement is in place, a nurse employed by a LTCF may serve as an agent for the prescribing practitioner in communicating prescriptions for schedule II substances to a pharmacy by fax. **Schedule II prescriptions cannot be**

**transmitted orally by the agent in any circumstance - even in emergencies.** The prescription must contain all of the information and meet all the requirements for a valid prescription. The pharmacist receiving the faxed prescription must treat it as the original in terms of records retention.

For more information on handling of controlled substance prescriptions in long-term care facility settings, please consult with your facility’s legal counsel. You may also contact the DEA directly at: (202) 307-7297. •

# Repackaging Medications for Temporary Leave of Residents in Long-Term Care Facilities or Small Group Homes

Board staff frequently receive questions from nurses employed by long-term care facilities about sending residents' medications with them, when the residents are away from the facility, in an amount needed only for the time they are away. This would require the nurse to re-package or place the medications in labeled containers other than the one originally provided by the Pharmacy that dispensed the medication. The activity pertaining to "re-packaging" dispensed medication is regulated by the Board of Pharmacy. Pharmacy Board staff recently informed the Board that the Pharmacy Board reaffirmed its policy concerning nurses re-packaging residents' medications while the resident is away from a long-term care or residential care setting. Excerpts of the Pharmacy Board's September 2010 meeting related to the Pharmacy Board's action are provided below:

**“Minutes of the  
September 13-15, 2010  
Meeting of the  
Ohio State Board of Pharmacy  
Monday, September 13**

**R-2011-071** Reaffirmation of an existing policy created January 22, 1985, concerning mental health and pick-up stations. The Board discussed circumstances in which residents in nursing homes or small group homes for the mentally disabled need to take medication while on temporary leave or when absent during the day from the facility where they reside. The Board noted

that in each of these instances, the medications had been dispensed by a pharmacist for administration by the patient themselves, or by personnel of the facility where the patient resides. The Board further noted that the facility where the patient resides maintains custody of the drugs for the patient and in providing nursing or custodial care of the patient, is responsible for the administration of the medication as prescribed.

The problem faced by these facilities is the repackaging of the medication for administration at a site other than the facility where they reside and by individuals who are not employees or agents of the facility. The repackaging of the medication in smaller amounts

The activity pertaining to “re-packaging” dispensed medication is regulated by the Board of Pharmacy. Pharmacy Board staff recently informed the Board that the Pharmacy Board reaffirmed its policy concerning nurses re-packaging residents’ medications while the resident is away from a long-term care or residential care setting.

for self-administration, or administration by someone other than an employee of the facility, is not considered to be dispensing.

If the medication has already been dispensed by a pharmacist in accordance with state and federal laws and delivered to the facility responsible for the care of the patient, any competent employee of the facility could legally prepare the medication for administration by another competent individual who has temporary custody and is responsible for the patient’s well-being during his/her absence from the facility.

In order to ensure the medication is administered as prescribed, an amount necessary to cover only the duration of drug therapy should be repackaged and labeled with:

1. the facility’s full name and address;
2. the patient’s full name;
3. directions for use;
4. any cautionary statements required for the safe and effective use of the drug;
5. full name of the drug; and the
6. date the drug was packaged for administration.

In order to avoid confusion, and to prevent errors in administration, each package should contain one medication only to be administered. A record of the individual responsible for repackaging the drug should also be maintained in the facility, as well as the date and amount removed from the patient’s prescription container for administration at a location other than the facility where he/she resides.

In some instances, if not all, it may also be in the best interest of the patient and the facility if an administration record form accompanied the package of medi-

cation that is to be administered when the patient is absent from the facility. This form could be maintained with the

patient’s records in the facility and provide a continuous record of drug therapy and the individuals responsible for the patient’s care during such therapy.

Mr. Moné moved that the policy be renewed. Ms. Lange seconded the motion and it was approved by the board: *Aye— 8.*”

– *Excerpt from minutes of September 13-15, 2010 Ohio State Board of Pharmacy Meeting* •

## The nature of healthcare excellence

*is in your own backyard.*

Ashtabula County Medical Center, a Cleveland Clinic affiliate, is a non-profit 249-bed community owned hospital that offers the advanced technology you’d find in a metropolitan healthcare facility with the welcoming appeal of a smaller community setting and an inviting atmosphere. We are now seeking:

### Assistant Nurse Managers

- Emergency Department, Part-time
- Medical/Surgical, Full-time • ICU, Full-time

The Assistant Nurse Managers provide oversight on all shifts under the direction of the Nurse Managers. The areas of responsibility include clinical supervision including attendance tracking, disciplinaries, evaluations, quality improvement initiatives, and scheduling staff; in conjunction with the Nurse Managers, are responsible for quality outcomes, patient satisfaction, fiscal responsibilities, and for attaining and maintaining adherence to prescribed regulatory standards; assume responsibilities of Nurse Manager in his/her absence; provide coverage of the house supervisor role; and function as the nursing supervisor when needed.

Requirements include a Bachelor’s degree in nursing preferred; minimum of two (2) years clinical experience related to nursing; and a current RN license in the State of Ohio.

We offer a total compensation package, including competitive wages, health, dental, and vision insurance, life insurance, 403(b) with employer contributions, PTO, tuition assistance, CEU opportunities, and free parking. A NorthCoast 99 winner, ACMC Healthcare System is recognized as a great workplace for top talent in northeast Ohio...like you.

# NEW RULE: Advanced Practice Nurses Primary Source Recertification Documentation

If you are an advanced practice nurse, your certificate of authority (COA) is current and valid only if you meet all requirements of the Board including maintaining certification or recertification by the applicable national certifying organization. (Please refer to the Board's website at [www.nursing.ohio.gov](http://www.nursing.ohio.gov) for a list of Board approved national organizations).

Effective February 1, 2011, the Board will require primary source verification for advanced practice nurse national recertification. For this to occur, you must request that your national certifying

organization notify the Board directly of national recertification within thirty days of your recertification. The Board will no longer accept documentation of recertification from a COA holder.

If you have any questions, please contact the Advanced Practice Unit at [apn@nursing.ohio.gov](mailto:apn@nursing.ohio.gov) or (614) 466-6180.

For this to occur, you must request that your national certifying organization notify the Board directly of national recertification within thirty days of your recertification.

# Passing Standard for the NCLEX-PN Examination Raised

The National Council of State Boards of Nursing, Inc. (NCSBN) Board of Directors voted on Dec. 8, 2010, to raise the passing standard for the NCLEX-PN Examination (the National Council Licensure Examination for Practical Nurses). The new passing standard is -0.27 logits on the NCLEX-PN logistic scale. The new passing standard will take effect on April 1, 2011, in conjunction with the *2011 NCLEX-PN Test Plan*.

After consideration of all available information, the NCSBN Board of Directors determined that safe and effective entry-level PN practice requires a greater level of knowledge, skills and abilities than was required in 2008 when NCSBN implemented the current standard. The passing standard was increased in response to changes in U.S. health care delivery and nursing practice that have resulted in the greater acuity of clients seen by entry-level PNs.

The NCSBN Board of Directors used multiple sources of information to guide its evaluation and discussion regarding the change in passing standard. As part of this process, NCSBN convened an expert panel of nurses to perform a criterion-referenced standard setting procedure. The panel's findings supported the creation of a higher passing standard. NCSBN also considered the results of national surveys of nursing professionals including nursing educators, directors of nursing in acute care settings and administrators of long-term care facilities.

The NCSBN Board of Directors evaluates the passing standard for the NCLEX-PN Examination every three years to protect the public by ensuring minimal competence for entry-level LPN/VNs. NCSBN

The NCSBN Board of Directors used multiple sources of information to guide its evaluation and discussion regarding the change in passing standard. As part of this process, NCSBN convened an expert panel of nurses to perform a criterion-referenced standard setting procedure. The panel's findings supported the creation of a higher passing standard.

coordinates the passing standard analysis with the three-year cycle of test plan evaluation. This three-year cycle was developed to keep the test plan and passing standard current. A PDF of the *2011 NCLEX-PN Test Plan* is available free of charge from the NCSBN website at [https://www.ncsbn.org/2011\\_PN\\_TestPlan.pdf](https://www.ncsbn.org/2011_PN_TestPlan.pdf).

The NCSBN is a not-for-profit organization whose members include the

boards of nursing in the 50 states, the District of Columbia and four U.S. territories - American Samoa, Guam, Northern Mariana Islands and the Virgin Islands.

Technical inquiries about the NCLEX examination may be directed to the NCLEX information line at 1.866.293.9600 or [nclex-info@ncsbn.org](mailto:nclex-info@ncsbn.org). The definition of a logit may be found on NCSBN's website at [https://www.ncsbn.org/02\\_18\\_05\\_brief.pdf](https://www.ncsbn.org/02_18_05_brief.pdf).

# ADVISORY GROUPS AND COMMITTEES

All meetings of the advisory groups begin at 10:00 a.m. (unless otherwise noted) and are held in the Board office. If you wish to attend one of these meetings, please contact the Board office at 614-466-6940 to determine any change in the location, date or times.

# NCSBN Embarks on an Innovative Multi-Site Transition to Practice Study to Examine the Effects of Nurse Transition to Practice Programs on Patient Outcomes

CHICAGO, IL--(Marketwire - January 25, 2011) - The National Council of State Boards of Nursing (NCSBN®) ([www.ncsbn.org](http://www.ncsbn.org)) announces the launch of an innovative, multi-state study to evaluate safety and quality outcomes in nurse transition to practice programs. In addition, the study will determine how well the preceptor training module prepares preceptors for their role; identify the challenges and potential solutions of implementing the NCSBN transition model; and determine cost/benefit analysis.

During Phase I, the NCSBN Transition to Practice Study will follow newly licensed registered nurses (RNs) hired to work in hospital settings in Illinois, Ohio

and receive institutional support from their hospital.

“NCSBN has been working on transition to practice for more than 10 years,” said

Site coordinators at each hospital will submit data electronically to study researchers at NCSBN. The data collected will measure actual patient outcomes such as infection rates, patient falls, patient satisfaction, as well as new nurse competencies, job satisfaction and job stress, to name a few.

NCSBN has brought together a research advisory panel of nationally renowned experts with extensive backgrounds and experiences studying new nurses and entry into practice. The panel was convened to assist NCSBN in the planning of the study and will continue to share their expertise throughout the implementation and analysis of the study.

and North Carolina during their first year of employment. Phase II will include newly hired RNs who work in settings other than hospitals and licensed practical/vocational nurses (LPN/VNs) who work in all health care settings. Throughout the year the newly hired nurses will participate in interactive, online transition to practice modules, work one-on-one with a preceptor

Maryann Alexander, PhD, RN, chief officer, Nursing Regulation, NCSBN. “Evidence shows that transition to practice programs protect patients and the public, which is the very mission of state boards of nursing and NCSBN. We are excited to embark on this study and the data collected will have a great impact on the future of nursing after initial licensure.”

This study is unique in two ways. First, it is the only transition study where sites will be randomly assigned to either a standardized transition to practice model or to a control group. The use of a control group will allow NCSBN to statistically analyze differences between study and control groups. Secondly, this study is the first to analyze actual patient outcomes in programs that transition new nurses to practice. Other studies of transition programs have looked at retention rates, new nurse satisfaction, preceptor satisfaction, and nurses’ perceptions of competence and confidence, but they haven’t examined actual patient outcomes. Since NCSBN’s transition to practice program is a regula-

tory model, it is essential to evaluate patient outcomes.

Each site in Illinois, Ohio and North Carolina will be randomized to either the study group or the control group. The control group will use its usual practice of transitioning new nurses to practice. The study group will participate in NCSBN's Transition to Practice Model. Newly licensed nurses in this group will successfully complete five interactive, online modules within their first three months of employment. The modules include patient-centered care, communication and teamwork, evidence-based practice, quality improvement, and informatics. These modules are designed to integrate experiential and active learning, and will not incorporate relearning of content that the new nurses have already learned in their nursing programs.

In addition to the modules, newly hired nurses will be given a preceptor to work with during their first six months of employment. The preceptor will be required to complete NCSBN's online preceptor training module. During the final six months of their involvement in the study, the newly hired nurses will receive institutional support. This may include being invited to serve on committees that look at the root cause of an error or creating procedures that allow the new nurse to be given continuous feedback and evaluation. By providing institutional support, nurses

NCSBN has brought together a research advisory panel of nationally renowned experts with extensive backgrounds and experiences studying new nurses and entry into practice.

are encouraged to reflect upon the care they have provided and to suggest quality improvements.

Site coordinators at each hospital will submit data electronically to study researchers at NCSBN. The data collected will measure actual patient outcomes such as infection rates, patient falls, patient satisfaction, as well as new nurse competencies, job satisfaction and job stress, to name a few. Once Phases I and II of the study have concluded, statisticians will compare safety and quality outcomes of the control group with those of the study group.

The final report of the NCSBN Transition to Practice Study will be reviewed by the NCSBN Board of Directors (BOD) in May 2014. Based on the results, the NCSBN BOD may recommend adoption of the NCSBN Transition to Practice Model to the NCSBN Delegate Assembly.

*The National Council of State Boards of Nursing (NCSBN) is a not-for-profit organization whose members include the boards of nursing in the 50 states, the District of Columbia and four U.S. territories -- American Samoa, Guam, Northern Mariana Islands and the Virgin Islands. There are also seven associate members.*

*Mission: NCSBN provides education, service and research through collaborative leadership to promote regulatory excellence for patient safety and public protection.*

*The statements and opinions expressed are those of NCSBN and not the individual member state or territorial boards of nursing.*

# New RN Licensure Renewal Process

If you hold a current, valid license as a registered nurse in Ohio, your license will expire after August 31, 2011. All RNs who are eligible to renew their license in 2011 will receive a renewal notice through the mail with a personal ID, password, and instructions on how to renew their license online. Renewal notices will be mailed during the month of March to the address that the Board has on file. It is strongly recommended that you renew your license as soon as you receive your renewal notice. Incomplete applications may result in late or lapsed fee charges, and delays in processing your renewal.

When renewing online you can pay the required renewal fee using Master Card or VISA credit cards, or debit cards with a MC or VISA logo. By utilizing the online renew-

al process, you may be able to verify the renewal of your license through the Board's website at [www.nursing.ohio.gov](http://www.nursing.ohio.gov) in as little as (3) three business days after completing the online renewal application. RNs who do not want to renew their license online must submit a written request for a paper renewal application by e-mail at [renewal@nursing.ohio.gov](mailto:renewal@nursing.ohio.gov), fax at (614) 466-0388, or by mailing the request to the Board.

It is extremely important to notify the Board of name and/or address changes immediately. An incorrect name and/or address may delay the renewal of your license. Please note that for a change in name, a court-certified copy of the document indicating the change in name is required. This certified document may be obtained from the court where

the original record was filed. If you have not yet notified the Board of any changes, please do so immediately. A Name/Address Change Form may be obtained through the Board web site at [www.nursing.ohio.gov](http://www.nursing.ohio.gov) under Name/Address Changes.

If you were notified of an audit of your continuing education for the licensing period of September 1, 2007 through August 31, 2009 and have not completed that audit by submitting the information required by the Board, you will not receive your renewal notice for 2011 - 2013 until you complete the audit requirements.

If you have questions about the renewal process, please contact the Board at (614) 995-5420 or by e-mail at [renewal@nursing.ohio.gov](mailto:renewal@nursing.ohio.gov). •

# BOARD DISCIPLINARY ACTIONS

- **Permanent Revocation** = Prohibited from ever practicing nursing or dialysis care, or as a certified community health practitioner.
- **Indefinite Suspension** = Indefinitely prohibited from practicing for a specified minimum period of time. The Board will reinstate only if all conditions for reinstatement, set at the time the action was taken, are met.
- **Automatic Suspension** = Suspension for a violation of a consent agreement or Board order or suspension required by law for commission of a specified felony.
- **Immediate Suspension** = Suspension required by law for a felony drug abuse offense.
- **Indefinite suspension with a stay** = On "probation." May practice if the license status is active but will be monitored by the Board under conditions and restrictions.
- **Restrictions** = Limits such as prohibition from passing narcotics or practicing in certain areas of practice.

- **Reprimand** = Least amount of discipline. Acknowledgment that what the nurse, dialysis technician or community health practitioner did was wrong. Does not prohibit practice.
- **Voluntary surrender** = May not ever practice again. Permanent action following a formal agreement by the nurse, dialysis technician or community health practitioner to give up the license or certificate.
- **Fines** = A fine of up to \$500 imposed for each violation.

**Below are the Board's actions taken during the last Board meetings. The actions are an accurate representation of information maintained by Ohio Board of Nursing at the time of posting. Because the name of a licensee may be the same as another, please do not assume from the name alone that a particular individual has had disciplinary action. Employers and potential employers should also verify the license status on the Board's Web site at [www.nursing.ohio.gov](http://www.nursing.ohio.gov). If you have any questions regarding these disciplinary actions, please contact the Compliance Unit at 614-466-8500.**
