Ohio Nursing *Momentum* is the official journal of the Ohio Board of Nursing. *Nursing Momentum's* traditional journal & interactive digital companion serve over 280,000 nurses, administrators, faculty and nursing students, 4 times a year all across Ohio. *Momentum* is a timely, widely read and respected voice in Ohio nursing regulation.

Judith Church,
DHA, MSN, RN
President

The Board welcomed two new members to the Board at its March meeting. Patricia Sharpnack, RN, DNP, is an Associate Professor and Director of Undergraduate BSN Programs at Ursuline College. Brenda Boggs, LPN, practices in the acute care setting.

Spring of 2014 brings the beginning of licensure renewal for LPNs. During the last LPN renewal cycle, the online renewal rate was 96%. Based on this high online rate, the effectiveness and efficiency of online renewal, and the availability of workplace computers, smart phones and devices, the Board decided to mandate online licensure renewal. The Board has notified LPNs of renewal requirements through postal mail, *Momentum*, Enews, Twitter and Facebook and licensees were alerted that renewal must be completed online; no paper applications will be accepted. If you visit the Board office to renew your license, you will renew online using a Board laptop.

A major improvement for the 2014 renewal cycle is that licensees have the ability to access their User ID and Password for renewal through the Board web site. Although the Board provides this information to licensees initially as part of the renewal notification process, if you misplace the information, you can now access it

During the last LPN renewal cycle, the online renewal rate was 96%. Based on this high online rate, the effectiveness and efficiency of online renewal, and the availability of workplace computers, smart phones and devices, the Board decided to mandate online licensure renewal.

on the web site rather than calling the Board office.

LPN workforce data will be collected this year, as it was collected for RNs during last year's renewal cycle. The nursing workforce data questions are essentially the same questions asked during the RN renewal last year, and are incorporated into the renewal application.

We thank you in advance for promptly renewing your license and providing the workforce data. •

Judith A. Church

UNIVERSITY OF AKRON

The School of Nursing, part of the new College of Health Professions, is a vibrant and diverse learning community at The University of Akron.

Associate Professor, Assistant Director Undergraduate Program, Nursing

This position works directly with the Director of the School of Nursing and has responsibility for undergraduate curriculum development, faculty hiring and assignments, faculty development, course management and scheduling, and program assessment and evaluation. The Assistant Director, Undergraduate Programs, coordinates undergraduate programming with the Assistant Director, Graduate Programs and Research in Nursing to ensure the smooth implementation of educational programming at all levels. This is a 12-month tenure track position with a mix of administrative, research, teaching and service. Minimum five years in the practice of nursing as a registered nurse, two of which have been as a faculty member in a registered nursing education program. Must be eligible for licensure as a registered nurse in Ohio with an earned PhD from an accredited program.

For complete details & to apply visit: <http://www.uakron.edu/jobs>. Job #8202.

Be prepared to attach a CV, cover letter of introduction & contact information for 3 current professional references to your application. Official transcripts will be required before an official hire. EEO/AA/Employer/Vets/Disability.

Assistant Professor, Nursing

The School is seeking an Assistant Professor. The tenure track position requires a current RN license in Ohio, earned doctorate in Nursing (PhD preferred) and must be able to meet the requirements for graduate faculty status. In addition, this person will have certification as an adult or family nurse practitioner. Preference will be given for an individual with prior teaching experience. Primary responsibility will involve teaching in the doctoral programs in the School.

For complete details and to apply please visit: <http://www.uakron.edu/jobs>. Job#7773.

When submitting the online application (link listed above) please be prepared to attach a curriculum vitae, cover letter, and current references. EEO/AA/Employer/Vets/Disability.

Professor/School Director, Nursing

This position works directly with the Dean of the College and will serve as the academic leader of the School and hold administrative and teaching responsibilities. In addition, the School Director will oversee faculty, staff, and administration to ensure efficient and effective delivery of quality programs and practices to promote the School and interdisciplinary collaboration within the College of Health Professions.

In addition, this position will build on the *University of Akron's 2020 Vision* by augmenting student enrollment, enhancing student success, and positioning the School in the creation and application of interdisciplinary research that benefits local, national, and global communities. The School Director will commit to the advancement of evidence-based practice, community engagement, and service learning in the School of Nursing.

The position is open at the rank of full professor and eligible for tenure.

To be considered, the Candidate must have Masters in Nursing and earned PhD or similar terminal degree in Nursing or related field, be eligible for licensure as a registered nurse in the State of Ohio, possess a minimum of 5 years of administrative leadership experience in higher education and have successful experience in obtaining competitive, national research grants. Evidence of collaborative leadership and management style that effectively engages the talents, strengths, and experiences of faculty and staff, experience working in a diverse community and experience with departmental budget management are also required. EEO/AA/Employer/Vets/Disability.

For complete details & to apply visit: <http://www.uakron.edu/jobs>. Job #8203.

Each Spring the Board reviews its Strategic Initiatives. The Strategic Initiatives are developed based on the Board's public protection mission and reflect the work of the Board:

1. Assure licensees and certificate holders meet statutory and regulatory requirements to be licensed or certified to practice in Ohio and are appropriately credentialed to practice, while maintaining an efficient and effective system to license or certify applicants as quickly as possible to enter or remain in the workforce.
2. Efficiently handle complaints, investigations, and adjudications to safeguard the health of the public and, in cases involving chemical dependency or practice issues, provide alternatives to discipline programs, if determined appropriate.
3. Approve pre-licensure education programs to assure the programs maintain academic and clinical standards for the preparation of entry-level nurses.
4. Assure licensees and certificate holders maintain competency based on continuing education standards set forth in the Nurse Practice Act and administrative rules.
5. Address pertinent regulatory issues for licensees and certificate holders and provide greater clarity about the requirements to those regulated by the Board and to the general public.

6. Implement technological systems and innovative regulatory programs to increase organizational efficiency and use of resources.

Licensing and compliance, two of the Strategic Initiatives, are major components of public protection. The Board works diligently to assure that only qualified applicants become licensed and licensees who violate

the Nurse Practice Act or administrative rules are removed from practice, if necessary.

The Board reports licensure and discipline actions to Nursys, a national nursing database of the National Council for State Boards of Nursing (NCSBN) so that licensure and disciplinary actions is accessible to the public and other state boards of nursing.

It is the Board's pleasure to inform you that there is a new tool through Nursys that promotes patient safety and public protection, the eNotify system. eNotify is a nurse licensure notification system that automatically provides Board licensure and publicly available discipline data to employers.

Betsy J. Houchen,
RN, MS, JD
Executive Director

We will continue to work with nursing employers, administrators, and educators to promote public protection and patient safety, and we look forward to seeing more of Ohio's nursing employers sign up for eNotify!

Nursing employers include not only health care institutions, but also nursing education programs, long-term care/assisted living facilities, community/home health, surgery centers, physician or APRN offices, state or local governmental agencies employing nurses, etc. You can learn more and subscribe to the system at www.nursys.com.

We will continue to work with nursing employers, administrators, and educators to promote public protection and patient safety, and we look forward to seeing more of Ohio's nursing employers sign up for eNotify! If you have questions, please contact NCSBN at nursysenotify@ncsbn.org or the Board at board@nursing.ohio.gov. •

- Florida Department of Law Enforcement approved Level 2 Live Scan Vendor in Beachwood, Westlake, & Columbus locations

Get printed once... and be done.

Storing fingerprints is a great benefit when individuals are going to need to submit fingerprints in the future. For a small one-time fee, fingerprints are stored in our secure electronic vault. Fill out and return a simple form, and we will resubmit your fingerprints to the state for a new background check to be processed. The standard service fee is incurred at the time of transmission. Storing your fingerprints saves you valuable time and gas!

Knowledge is power— take some for yourself!

Wound Care Education Institute (WCEI®) is a dedicated center of education designed to provide students with comprehensive training programs. Being certified can make a distinct difference in your patient's life, but it could change yours, too. In just a few days with our professional instructors, you can develop specialized clinical

skills in a curriculum designed to motivate and re-energize you. While you learn, you can take advantage of networking and career support opportunities. The National Certification Exams are sponsored by the National Alliance of Wound Care and Ostomy®. In some cases, tuition for WCEI programs may be covered by your employer.

Courses available for: **RNs / LPNs / LVNs / PTs / PTAs / OTs / OTA / MDs / DOs / DPMs / PAs**

Become Certified in Wound Care

The Skin & Wound Management Certification course is offered as either an ON-SITE classroom or self-paced, COMPUTER-BASED program. It is designed to educate participants with an overall comprehensive approach to risk assessment, wound assessment and patient treatment plans in wound management.

Mention Coupon Code "PCIOH" to receive **\$100 discount off WCC registration ONLY!** Coupon code must be used at time of purchase/registration. Existing registrations are not eligible. Coupon expires 12/31/2014.

Become Certified in Ostomy Management

By becoming an Ostomy Management Specialist™ (OMS), you'll have the skills to provide compassionate care to an underserved population. The OMS certification class is a comprehensive course of study that will take you from the anatomy and physiology of the systems involved in fecal and urinary diversions, hands-on skills training workshops, through the life-time of care required for the ostomy patient.

Become Certified in Diabetic Wound Management

The Diabetic Wound Management course focuses on overall diabetic wound care and promotion of an optimal wound healing environment including prevention, therapeutic and rehabilitative interventions.

The course is also offered as a fully narrated self paced, computer-based program with 90 days access to the curriculum.

WOUND CARE EDUCATION INSTITUTE®

REGISTERED NURSE SCOPE AND INFORMED CONSENT

The Board often receives questions from registered nurses concerning “informed consent” and whether or not nurses are limited to witnessing signature on an informed consent document, or whether they may obtain informed consent from their patients. Consent is a principle that pervades health care. Nurses obtain consent from patients in many informal ways. For example, when a nurse tells a patient that he/she needs to obtain the patient’s blood pressure and the patient raises his/her arm toward the nurse in response, the patient is implying consent for the nurse to do so. Because of the nature of health care and the varying risks of health care procedures, health care providers who are performing the procedure, and responsible for the patient’s well-being during the procedure, convey significant information to the patient, enabling the patient to make an informed decision as to whether or not to undergo the procedure. When a patient is making a decision based on the information conveyed, the patient is giving his/her informed consent. Informed consent is often documented in writing and includes a witness to the patient’s signature or affirmation of the patient’s consent.

Historically, nurses, because of their proximity to the patient clinical environment, have served as witness to a patient’s informed consent, or have conveyed the informed consent document, prepared and previously explained, for example, by a surgeon, to the patient. However, when a nurse is directly involved in obtaining informed consent for proce-

dures or care that are performed by the nurse, the nurse’s statutory scope of practice must be considered and maintained. Although Chapter 4723, Ohio Revised Code (ORC) also known as the Ohio Nurse Practice Act, does not specifically address informed consent, it is important to understand how the activity of obtaining informed consent may be related to the authorized scope of practice for nurses in Ohio.

Registered nursing practice is defined in Section 4723.01(B), ORC. The RN scope of practice includes but is not limited to: identifying a patient’s actual or potential health problem that is amenable to a nursing regimen, developing, executing and evaluating the patient’s response to the nursing regimen, providing health counseling and health teaching, and implementing a regimen for a physician or other authorized health care provider, including adminis-

tering medications and treatments. The LPN scope of practice is located in Section 4723.01(F), ORC. LPNs may participate in the informed consent process as directed and within their scope, however registered nurse practice is the focus of this article. It is also important to note that Section 4723.151, ORC, prohibits registered nurses and licensed practical nurses from providing medical diagnoses, prescribing medical measures and from engaging in the practice of medicine or surgery or any of its branches.

A nurse who is authorized, educated, competent and responsible for performing a specific procedure, activity or task, may obtain informed consent from the patient specific to the nurse's practice and responsibilities in performing the procedure or activity. When the nurse is providing health counseling and health teaching in explaining the procedure, activity or task, for purposes of obtaining the informed consent, the nurse is limited to his/her authorized scope of practice regarding the explanation of the procedure, its risks, and benefits.

For example, if a registered nurse is a member of a facility's infusion team, and is authorized, educated, competent, and responsible for inserting a patient's peripherally inserted central catheter (PICC), a nurse may obtain informed consent that is specific to the nurse's activity of inserting the PICC. The nurse may also reinforce the information previously provided by the ordering health care provider that explains the provider's treatment plan. However the nurse may not independently explain information about procedures that are not within the registered nurse's scope to perform.

Visit AltercareOnline.com to learn more about Career Opportunities, Tuition Bonuses, Benefits and to apply online.

AltercareOnline.com

When a nurse is directly involved in obtaining informed consent for procedures or care that are performed by the nurse, the nurse's statutory scope of practice must be considered and maintained.

The application of the registered nursing scope of practice in the activity of obtaining consent and informed consent does not reduce, diminish or marginalize the responsibilities of the registered nurse to ensure the patient receives the appropriate education and teaching related to the provision of nursing care, medications that will be administered, and other necessary health information.

Registered nurses should review their facility's policy concerning the obtaining of consent. Although a facility policy may limit the registered nurse's role in obtaining informed consent, it cannot place responsibilities on a registered nurse that exceed the nurse's authorized scope contained in Section 4723.01(B), or require the registered nurse to engage in practices that are prohibited by Section 4723.151, ORC or are inconsistent with the standards of competent practice set forth in Chapter 4723-4, Ohio Administrative Code.

Chapter 4723 Ohio Revised Code (Nurse Practice Act) and the Administrative Rules are available for review in their entirety on the Board of Nursing website: www.nursing.ohio.gov under the "Law and Rules" link. •

2014 ADMINISTRATIVE RULE UPDATE: NURSING PRACTICE RULE REVISIONS

The registered nurse must be available continuously through some form of telecommunication with the nurse whose practice is being supervised, and take all action necessary, including but not limited to conducting periodic on-site visits to insure that the supervised nurse is practicing in accordance with acceptable standards of safe nursing care.

The Board recently revised Ohio Administrative Code Rule Chapters 4723-4, Standards of Practice Relative to Registered Nurse or Licensed Practical Nurse; 4723-18, Practice Intervention and Improvement Program; and 4723-20, Prevention of Disease Transmission, effective February 1, 2014. Both the Ohio Nurse Practice Act (Chapter 4723 Ohio Revised Code) and the current Administrative Rules adopted thereunder are available for review through the “Law and Rules” link on the Board’s website: www.nursing.ohio.gov

Below is a brief summary of the revisions made to the above Rule Chapters.

Standards of Practice

Consistent with prior Board direction, when the rules are referring to the recipient of nursing care, the word “client” has been replaced with “patient” over time as various rules have been amended. This change has been applied throughout Chapter 4723-4, OAC.

Rules 4723-4-03 and 4723-4-04, OAC, pertain to standards of competent practice as a registered nurse and licensed practical nurse respectively. The amendments to these two rules clarify language concerning the confidentiality of patient information. Nurses shall access patient information only for purposes of patient care, or for otherwise

fulfilling the nurse’s assigned job responsibilities, and shall not disseminate patient information for purposes other than patient care, or for otherwise fulfilling the nurse’s assigned job responsibilities, through social media, texting, emailing or any other form of communication. For example, if a nurse is performing billing work, as part of his or her assigned responsibilities, patient information may need to be accessed and doing so would not be a rule violation. On the other hand, if a nurse has no job-related reason to access a patient’s record and accesses the record to, for example, gain information about the patient for personal reasons, that would be a rule violation.

Rule 4723-4-05, OAC, pertains to standards of competent practice as an advanced practice registered nurse (APRN). This rule was amended to clarify that when an APRN's practice is evaluated by another APRN, the evaluating APRN must hold the same type of certificate of authority as the APRN whose practice is being evaluated. Therefore, a CRNA evaluates a CRNA's practice, a CNP evaluates a CNP's practice, a CNS evaluates a CNS's practice and a CNM evaluates a CNM's practice. In addition, a supervising physician, dentist or podiatrist may also evaluate a CRNA's practice, and a collaborating physician or podiatrist, as applicable, may evaluate a CNP, CNS or CNM's practice.

Rule 4723-4-06, OAC, pertains to the standards of nursing practice promoting patient safety. Amendments to this rule provide clarity to the requirements for supervising nursing practice. Consistent

with the scope of registered nurse practice set forth in Section 4723.01(B), ORC, only a registered nurse shall supervise or evaluate the practice of nursing. The registered nurse is not required to be on-site to provide the supervision; however, the registered nurse must be available continuously through some form of telecommunication with the nurse whose practice is being supervised, and take all action necessary, including but not limited to conducting periodic on-site visits to insure that the supervised nurse is practicing in accordance with acceptable standards of safe nursing care. In evaluating nursing practice, the registered nurse is required to also conduct periodic on-site visits sufficient to enable the evaluation of the evaluated nurse's practice performance.

The requirements of this Rule are not to be construed as authorizing a licensed practical nurse to practice without direction, nor are they to be construed to

prohibit a licensed practical nurse from participating in activities that contribute to the delivery of patient care services, such as scheduling of coverage for nursing services and observation and documentation by a licensed practical nurse regarding care provided by assistive personnel. In addition, this rule does not prohibit a non-nurse supervisor from evaluating a nurse employee in matters other than the practice of nursing. For example, a non-nurse supervisor may oversee a nurse's time/attendance or compliance with other workplace rules.

Another amendment adds facilities at which a nurse may be working a "locus tenens" assignment to the list of entities to which a nurse is prohibited from making false, misleading, or deceptive statements, or causing the submission of such statements or documentation. Further, the rule now clarifies that, for

Consistent with prior Board direction, when the rules are referring to the recipient of nursing care, the word “client” has been replaced with “patient” over time as various rules have been amended.

purposes of a nurse maintaining professional boundaries, and protecting the patient from inappropriate behaviors or actions by the nurse listed in the rule, a nurse is prohibited from violating professional boundaries through the use of social media, texting, emailing, or other forms of communication, to communicate with, or about a patient for non-health care purposes or for purposes other than fulfilling the nurse’s assigned job responsibilities.

Rules 4723-4-07 and 4723-4-08, OAC, contain the standards for applying the nursing process as a registered nurse and licensed practical nurse respectively. The amend-

ments to the registered nurse standards further establish the cyclical nature of the process that is to continuously respond to the patient’s nursing needs and requires direct application of registered nurse practice. The standards for applying the nursing process as a licensed practical nurse were amended to clarify that the licensed practical nurse is directed in providing nursing care by the established nursing plan.

Practice Intervention and Improvement Program

The administrative rules in Chapter 4723-18, OAC, for PIIP, an alternative to discipline monitoring program,

were amended to increase administrative efficiency. The amended rules allow the Board Supervising Member to more directly determine the educational intervention that is to be completed, and increase the types of educational interventions that may be completed by a PIIP participant. The amended rules further clarify the communication timelines and documentation that is to be submitted to the Board.

Prevention of Disease Transmission

Chapter 4723-20, OAC, was amended with language that is consistent with Centers for Disease Control terminology. For example, the term “Standard precautions” was replaced with “Universal and standard precautions.” In addition the term “hand hygiene” was included in Rule 4723-20-01, OAC, as a method to control the spread of respiratory infection. •

2014 ADMINISTRATIVE RULES UPDATE: CHANGES TO NURSE EDUCATION GRANT PROGRAM RULES

Recent revisions to Chapter 4723-25, Ohio Administrative Code (OAC), the Nurse Education Grant Program (NEGP), were effective February 1, 2014. The changes will not impact current NEGP recipients; rather they will impact NEGP applicants and recipients with the grant cycle beginning in 2015. The rule changes were made in response to statutory amend-

ments made by House Bill 303 during the 129th General Assembly. The rules

now recognize a “patient centered medical home” as a qualifying partner for a nursing education program seeking NEGP funds. With the extended NEGP funding that was also authorized through HB 303, the Board reset the maximum amount a grant recipient may be awarded to an accumulative one million dollars, over the ten-year period January 2014 through December 2023. •

BROWN MACKIE COLLEGESM Grow. Evolve. Become.

The **Brown Mackie College** Ohio campuses are now recruiting for several Nursing positions. Qualified candidates should apply to: <http://edmc.hua.hrsmart.com/ats/kiosk.php?kiosk=5>.

BMC-Cincinnati is hiring for an Administrator for their RN/BSN program.

BMC-Findlay is sourcing Nursing faculty for their RN program.

- Candidates must have MSN
- 2 yrs teaching exp at the RN level
- 5 years minimum as a RN.

BMC-Akron is recruiting for LPN/RN faculty.

- MSN
- 0-2yrs teaching experience in post-secondary or college institution.

BMC-North Canton is recruiting for a FT Instructor for their PN Program.

- MSN
- Prior teaching experience in a theory, clinical, or training setting preferred.

AMENDMENTS TO CHAPTER 4723-5, OHIO ADMINISTRATIVE CODE: NURSING EDUCATION PROGRAM

The following is a summary of amendments to Ohio Administrative Code Chapter 4723-5 that became effective February 1, 2014. The Ohio Nurse Practice Act (Chapter 4723, Ohio Revised Code) and Administrative Rules are available in their entirety for review on the Board website: www.nursing.ohio.gov under the “Law and Rules” link.

- **Rule 4723-5-04, OAC, Procedure for Board determination of a program’s status:**

This Rule was amended for consistency with recent changes made to Section 4723.06 of the Ohio Revised Code. Regarding a program with Conditional approval, the Board will consider granting the program Full approval “at the first board meeting following completion of the survey process required by division (A)(5) of section 4723.06 of the Revised Code.” Prior language referenced the first Board meeting following the first graduating class.

In addition, new language was added recognizing the Board’s authority to enter into a consent agreement with a pre-license nursing education program in lieu of conducting an adjudication when requirements of Chapter 4723-5, OAC, are not met and maintained.

- **Rule 4723-5-06, OAC, Survey visits, reports, and response by**

- **the administrator of a program to a survey visit report**

The timeline for a pre-license nursing education program to submit its response to a survey visit report issued by the Board was changed from 30 days to 45 days prior to the date the Board is to consider the survey visit report.

- **Rule 4723-5-12, OAC, Program policies**

New language was added requiring pre-license nursing education programs to have a process to review and award credit for an individual’s military education and skills training that is substantially equivalent to the nursing curriculum.

Rule language was added, consistent with changes implemented with respect to licensed nurse conduct, regarding student conduct that must be addressed in pre-license nursing education program policies. The conduct includes, but is not limited to, inappropriate access and dissemination of patient information and self-administration of a Schedule I controlled substance.

- **Rule 4723-5-08, OAC, Requirements for seeking conditional approval**

New language was added to reflect the Board’s authority to deny approval to a person who submits or causes to be submitted false, misleading or deceptive statements, information or documentation to the Board in the process of applying for approval of a new education program, pursuant to an adjudication conducted under Chapter 119 of the Revised Code.

Rule language was added, consistent with changes implemented with respect to licensed nurse conduct, regarding student conduct that must be addressed in pre-license nursing education program policies. The conduct includes, but is not limited to, inappropriate access and dissemination of patient information and self-administration of a Schedule I controlled substance. In addition, the rule was amended to replace the word “client” with “patient.” •

2014 LPN RENEWAL

If you are a LPN in Ohio, your license will expire after August 31, 2014. All LPNs who are eligible to renew their license were sent a renewal notice through the mail in April to the address of record with the Board. As a convenience, LPNs were also sent a reminder to renew their license online via the email address of record with the Board. It is extremely important to notify the Board of a name and/or address change immediately. An incorrect name and/or address may delay the renewal of your license.

The format for the renewal notice for LPNs is new this year. Instead of a letter, you should have received a perforated sealed envelope. This included your personal ID, password, and instructions on how to renew your license. In addition, you will be able to access your User ID and

Password for online renewal through the Board web site at www.nursing.ohio.gov.

Starting with the 2014 LPN renewal, all nurses will be required to renew their licenses online. By utilizing the online renewal process, you may be able to verify the renewal of your license through the Board's website at www.nursing.ohio.gov in as little as three business days. When renewing online you can pay the required application fee using Master Card or VISA credit cards, or debit cards with a MC or VISA logo.

It is strongly recommended that you renew your license as soon as you receive your renewal notice. Incomplete applications may result in late or lapsed processing fee charges, and delay the renewal of your license. Fees for renewal are as follows:

- Before July 1, 2014 - \$65

- July 1, 2014 through August 31, 2014 (includes late processing fee) - \$115
- After August 31, 2014 (reinstatement application required) - \$100

The Board audits nurses each year to determine compliance with continuing education requirements. If you were notified of an audit of your continuing education for the period of September 1, 2010 through August 31, 2012 and have not submitted the information required by the Board, you will not receive your renewal notice for 2014-2016 until you complete the audit requirements.

Board staff are available to assist you in taking the necessary steps to renew your license. If you have questions about the renewal process, please contact the Board at (614) 995-5420 or by e-mail at renewal@nursing.ohio.gov.

ADVANCED PRACTICE REGISTERED NURSE NATIONAL RECERTIFICATION

If you are an advanced practice registered nurse, * your certificate of authority (COA) is current and valid only if you meet all requirements of the Board, which includes maintaining certification by the applicable national certifying organization (please refer to the Board's website at www.nursing.ohio.gov for a list of Board approved national organizations). The

Board requires primary source verification for advanced practice registered nurse national certification and recertification. You must request that your national certifying organization notify the Board directly of national recertification within thirty days of your recertification. The Board will not accept documentation from a COA holder.

Please note that you may have more

than one national certifying organization submit certification or recertification documents on your behalf if it is related to the certificate of authority that you hold (i.e. certified nurse mid-wife, certified nurse practitioner, clinical nurse specialist).

**An exception to this requirement applies to CNSs certified by the Board on or before December 31, 2000.*

OHIO AUTOMATED RX REPORTING SYSTEM (OARRS)

APRNs are reminded that Board Rule 4723-9-12, Ohio Administrative Code, sets forth certain situations which require

review of OARRS prior to prescribing or personally furnishing a controlled substance or tramadol to a patient. For

information regarding OARRS, access the following link: <https://www.ohiopmp.gov/portal/Brochure.pdf>.

REACTIVATION AND REINSTATEMENT OF A NURSING LICENSE

An inactive or lapsed license/certificate may be reactivated at anytime by completing a reactivation/reinstatement application. This includes completing the required paperwork, paying a fee (if applicable), and providing proof of continuing

education contact hours. In addition, if a license has been inactive or lapsed for five or more years from the date of application for reactivation/reinstatement, the applicant must complete a civilian (BCI) and federal (FBI) criminal records check.

Contact the Renewal Unit at (614) 995-5420 or renewal@nursing.ohio.gov to request a reactivation/reinstatement application. Note that submission of reinstatement and reactivation applications online will be available later this year.

DIALYSIS TECHNICIANS

Effective March 20, 2013, the Board of Nursing no longer issues a series of “temporary certificates,” including temporary certificate 1, temporary certificate 2, and temporary certificate 3. The new law requires the issuance of a dialysis technician intern certificate. The intern certificate can be issued if the applicant has not taken the certification examination, but has completed a training program approved by the Board. The intern certificate is valid for a period of time that is 18

months from the date an applicant completed a training program minus any time the applicant was enrolled in any training program(s). The intern certificate cannot be renewed. Other certification requirements include submission of civilian (BCI) and federal (FBI) criminal records checks. An intern certificate holder must pass an examination conducted by a testing organization approved by the Board (BONENT or NNCO) in order to receive an Ohio Certified Dialysis Certificate.

Dialysis technicians from out-of-state can obtain an Ohio Certified Dialysis Certificate if they submit evidence that they passed an examination conducted by a testing organization approved by the Board (BONENT or NNCO), completed two contact hours of continuing education on Ohio law and rules, and have performed dialysis care for at least 12 months immediately prior to the application date. Other certification requirements include submission of civilian (BCI) and federal (FBI) criminal records checks. •

MILITARY

The Board of Nursing has established a dedicated page on the Board web site for military personnel and spouses. To access the page, click on the “Military and Veterans” link listed on the left side

of the home page. The page provides current military personnel and veterans with information about licensure and renewal processes, continuing education, FAQs, and resources. All licensure and certifica-

tion applications have been revised, so that military personnel, veterans and/or their spouses can indicate their military status on the application to enable Board staff to prioritize the application upon receipt. •

NAME/ADDRESS CHANGES

How do I change my name with the Board?

You must submit a certified court document of a name change (i.e. marriage certificate/abstract, divorce decree/dissolution, name change document) **within thirty days of the change**. Certified documents can be obtained from the court where the original record was filed. Photocopies or notarized copies are not acceptable for a name change. Submit your certified document with a “Name/Address Change Form” or with a brief letter which includes your Ohio license/certificate number, your previous name, your new name as you want it to appear on Board records, your current mailing address, county and telephone number. A Name/Address Change Form is available on the Board’s website at www.nursing.ohio.gov at the “Change Your

Name/Address” link. Any name change documents must be mailed to the Board. The Board will return your certified document. There is no fee for a name change.

How do I change my address with the Board?

Address changes must be submitted in writing **within thirty days of the change**. Submit your address change with a “Name/Address Change Form” or with a brief letter, which includes your name, Ohio license/certificate number, mailing address, county and telephone number. A Name/Address Change Form is available on the Board’s website at www.nursing.ohio.gov at the “Change Your Name/Address” link. If you wish to verify that your address has been changed, call the Board at (614) 466-3947 for verbal verification. There is no

fee for an address change.

Please submit to the attention of the appropriate department:

Shine On!

NURSES IN ART

A goal...A wish...A vision...

Let's shine a light on nurses and nursing.
An exhibition of art that explores
the past, present, and future
of the nursing profession.

Columbus Museum of Art
March 20 - June 21, 2015

Shine On!

NURSES IN ART

Join us by supporting this important recognition of nurses and their significant impact on our world!

Exhibition dates:
Columbus Museum of Art
 March 20 - June 21, 2015

The exhibition is organized by the Columbus Museum of Art. Carole Genshaft, Ph.D., CMA Adjunct Curator, serves as curator.

Your leadership support

of this exhibition will help tell the story of how nurses touch the lives of people from birth to death. Throughout the ages, nurses have inspired artists to create works of art that are beautiful, meaningful, and provocative. The exhibition will shine a light on who nurses are and what they do, dispel stereotypes, raise and discuss important issues, and highlight and praise nursing in today's complex society. Programs will be presented that invite the public to better understand the role of nursing today in a world of new technologies and specializations. For nurses, it will be a celebration of this serving profession to which they have dedicated their lives. It will encourage the public to reflect on the importance of nursing in healthcare and, on a personal level, in their own lives.

Your lead support will connect your organization's name with the exhibition that will be seen by tens of thousands of visitors in the Midwest. Thousands of people around the globe will be linked to the exhibition through online activities.

Thank you for your consideration in participating in this important exhibition and project. Suggested levels of support:

Lead Sponsor	\$50,000
Major Sponsor	\$25,000
Contributing Sponsor	\$10,000
Patron	\$5,000
Supporter	\$2,500
Contributor	\$1,000

Contact Dr. Judith Kimchi-Woods, Nurses in Art Campaign Chair, to discuss how you would like to participate in this historic project.

NCLEX[®]

INFORMATION

The Eight Steps of the NCLEX[®]

1. Apply for licensure with one board of nursing.
2. Register and pay \$200 to Pearson VUE via the Internet or telephone.
 - Payment via MasterCard, Visa or American Express will be accepted.
 - You must be made eligible by the board of nursing (see Step 4) within 365 days of your registration and payment.
3. Receive Acknowledgement of Receipt of Registration from Pearson VUE by email.
 - Your username and password for the Pearson VUE website is located in this email.
4. Board of nursing makes you eligible in the Pearson VUE system.
5. Receive Authorization to Test (ATT) email from Pearson VUE.
 - You must test within the validity dates (an average of 90 days) on the ATT. There are no extensions.
 - You no longer have to present the ATT email at your exam appointment.
6. Schedule your exam appointment via the Internet (by accessing your online account) or by telephone (international scheduling may only be done by phone).
7. Arrive for the exam appointment and present your acceptable identification.
8. Receive your official results from your board of nursing up to six weeks after your exam (this time period varies amongst boards of nursing).

No Refunds

There are no refunds of NCLEX fees for any reason.

Acceptable Identification

- Use the exact name that is on your ID when registering for the NCLEX with Pearson VUE. At the test center, the name on the ID you present must match the name in the Pearson VUE system. If it does not match you will be required to reregister and pay another exam fee.
- In the U.S., American Samoa, Guam, Northern Mariana Islands and U.S. Virgin Islands test centers, the only acceptable forms of ID are:
 - U.S. drivers license (Department of Motor Vehicle-issued) (if expired, a renewal slip that includes a photograph and a signature must also be presented);
 - U.S. state identification (Department of Motor Vehicle-issued);
 - U.S. military identification; or
 - Passport.
- At international test centers, only a passport is acceptable.
- All IDs listed above must be written in English, signed in English, valid (not expired) and include a photograph.
- IDs from a U.S. sanctioned (embargoed) country must follow the proof of residence policy.
- Driver's/Learner's permits, temporary identification (e.g., limited term IDs and any ID reading "temp" or "temporary") and passport cards are not accepted for admittance to the NCLEX.
- If you cannot provide an acceptable ID at your appointment, you will have to reregister and pay another exam fee for the NCLEX.

Rules for Scheduling/Rescheduling/Uncheduling

If you need to reschedule your appointment:

- Tuesday, Wednesday, Thursday or Friday appointments must be changed 24 hours in advance of the original date and time. For example, if your appointment is on Wednesday at 2:00 pm, then you must call to reschedule by Tuesday at 2:00 pm.
- Saturday, Sunday or Monday appointments must be changed no later than the Friday before the original date and time. For example, if your appointment is on Monday at 2:00 pm, then you must call to reschedule by Friday at 2:00 pm.

Know all the policies and rules before you start the NCLEX process by accessing the [NCLEX Candidate Bulletin](#).

Don't Forget!

- You may not access or bring any educational, test preparation or study materials to the testing center at any time during your examination.
- Cell/mobile/smart phones, tablets, pagers or other electronic devices may not be accessed at all during your examination appointment (including breaks). Candidates will be required to store electronic devices in sealable, plastic bags at the test center. Candidates who refuse to store their electronic devices in the Pearson VUE provided plastic bag upon check-in will not be allowed to test and will be required to reregister and pay another exam fee.

THE OHIO NCLEX WORKSHOP

The Board of Nursing was pleased to host the first Ohio NCLEX Workshop presented by staff of the National Council of State Boards of Nursing (NCSBN). The one-day workshop was offered on two dates, April 23 and 24, 2014 in Columbus. Both workshop days were filled to capacity, with approximately 140 attending.

The Ohio NCLEX Workshop was made available through the courtesy of NCSBN. Jolene Riordan, Content Associates for Examinations, and Terrence Wright, Test Development Manager for Examinations provided an overview of the NCLEX development and shared their expertise by providing a discussion on how the NCLEX Practice Analysis and NCLEX Test Plan are used to develop the examination; the speakers also discussed opportunities to utilize item writing principles and NCLEX resources. Attendees were availed the opportunity to practice and receive feedback concerning their item writing skills and were given information on how to volunteer for NCSBN as NCLEX item writers and reviewers.

Dr. Phil Dickison, the NCSBN Chief Officer of NCLEX Examination stated, "It is extremely important to NCSBN to be able to offer regional NCLEX Workshops so NCSBN, in conjunction with the state boards of nursing, can provide detailed information about the NCLEX to interested parties and nursing educators. We are especially pleased to have had the opportunity to work with the Ohio Board of Nursing to offer the NCLEX Workshop this year, which was the first time the Workshop has been presented in Ohio!"

DIRECTOR OF NURSING TECHNOLOGY

Full-time, 12-month position,
Full benefits package available,
Sick Leave, 22 Vacation days per
year, Holidays off, State Teachers
Retirement (STRS). MSN and Ohio RN
license required. Salary is negotiable.

40 years of educating healthcare leaders

BOARD DISCIPLINARY ACTIONS

- **Permanent Revocation** = Prohibited from ever practicing nursing or dialysis care, or working as a certified community health worker or certified medication aide.
- **Indefinite Suspension** = Indefinitely prohibited from practicing for a specified minimum period of time. The Board will reinstate only if all conditions for reinstatement, set at the time the action was taken, are met.
- **Automatic Suspension** = Suspension for a violation of a consent agreement or Board order or suspension required by law for commission of a specified felony.
- **Immediate Suspension** = Suspension required by law for a felony drug abuse offense.
- **Indefinite suspension with a stay** = On "probation." May practice if the license status is active but will be monitored by the Board under conditions and restrictions.
- **Restrictions** = Limits such as prohibition from passing narcotics or working in certain areas of practice.
- **Reprimand** = Least amount of discipline. Acknowledgment that what the nurse, dialysis technician or community health worker did was wrong. Does not prohibit practice.
- **Voluntary surrender** = May not ever practice again. Permanent action following a formal agreement by the nurse, dialysis technician, medication aide or community health worker to give up the license or certificate.
- **Fines** = A fine of up to \$500 imposed for each violation.

Below are the Board's actions taken during the last Board meeting. The actions are an accurate representation of information maintained by Ohio Board of Nursing at the time of posting. Because the name of a licensee may be the same as another, please do not assume from the name alone that a particular individual has had disciplinary action. Employers and potential employers should also verify the license status on the Board's Web site at www.nursing.ohio.gov. If you have any questions regarding these disciplinary actions, please contact the Compliance Unit at 614-466-8500.
