

Vaccine Education Program for Nursing and Health Care Professionals

The American Nurses Association (ANA), along with 19 nursing and health care organizations, launched a new vaccine education campaign, [COVID Vaccine Facts for Nurses](#). The campaign website provides nurses and other health care professionals access to information and expert perspectives about the safety, efficacy and importance of COVID-19 vaccines. [Nursing Organizations Launch COVID-19 Vaccine Information for Nurses](#).

Information includes a comprehensive list of common questions which includes answers to questions about vaccine safety, development, distribution, side effects and more from nursing experts and the medical and scientific communities, offered in a format that makes it easy to share on social media. It also includes resources including original and curated content from respected sources which offer access to information nurses need to increase their confidence in the vaccines and to address questions from their patients and communities.
