Executive Director Report
Betsy Houchen highlighted the following updates from the Executive Director Report:

- The Ohio Revised Code specifies that legislative standing committees review all boards at least once every six years. Boards are required to submit information about purpose, workload, budget and staffing to demonstrate the need for their continued existence. The Board responded in June to a questionnaire sent by the House State and Local Government Committee.

- The Board participated as part of the Working Group created by Governor DeWine in May 2019, to review the Medical Board’s handling of the investigation involving Richard Strauss. One of the Work Group recommendations is that the Ohio Health Care Board Executive Directors meet to coordinate program models to address sexual impropriety complaints. The first meeting was held in July, and the next meeting in August will be held with investigators and/or managers.

- The Department of Administrative Services provided a timeframe, July to October 2021, for employees in state owned office buildings to return to work. The Board office will re-open October 1, 2021, and staff will be working in the office, remotely, or on hybrid schedules.

- For licensing, the State declared emergency ended June 18, 2021. However, because the federal declared emergency continues, out-of-state nurses can practice in Ohio without first obtaining licensure in Ohio, in accordance with the Nurse Practice Act. Posted on the Board website is a notice about delays involving criminal records check reports. BCI and their vendors are working to resolve the
issues. RN and APRN renewal began July 1, 2021, and as of July 21, 65,514 RNs and 6,122 APRNs had renewed.

Patricia Sharpnack expressed gratitude to staff for their work as the increased workload continues and asked if the Board could assist in obtaining adequate staffing levels. The Board members agreed to submit a letter to OBM supporting an increase in staffing and the agency’s personnel ceiling, which was reduced at the time of COVID-19 related budget measures. Erin Keels asked about responding to calls/emails they receive from license applicants. Board staff will prepare a checklist for Board members to use when responding to questions.

**Legislative Report**
Tom Dilling presented the legislative report and summarized the status of the legislation highlighted in the written report. He also reported on a draft bill expected to be introduced that addresses health care “chaperones.”

**Fiscal Report**
Shannon Stalling presented the Fiscal Report for the fourth quarter of Fiscal Year 2021.

**Executive Session**
On Wednesday, July 21, 2021:
*Action*: It was moved by Patricia Sharpnack, seconded by Joanna Ridgeway, that the Board go into executive session to discuss pending or imminent court action with legal counsel and to consider the appointment, employment, or compensation of a public employee or official. A roll call vote was taken, and the Board unanimously voted to go into Executive Session with the following members presents and voting: S. Beidelschies, D. Hanley, E. Keels, D. Knueve, D. Lehmann, N. Phillips, S. Ranck, J. Ridgeway, P. Sharpnack. The Board entered Executive Session at 10:55 a.m., and reported out at 11:32 a.m.

**NEW BUSINESS**
**Administrative Rules**
Holly Fischer provided an update and reviewed comments. On June 24, 2021, staff met with interested parties to review the 2021 rule proposals. The meeting was conducted virtually via Microsoft Teams, and 48 individuals participated, in addition to Board staff members. The participants included individuals and parents, and representatives from many nursing education programs, community health worker training programs, health care practice groups, state agencies and nursing and health care associations.

**Chapter 4723-5 Nursing Education Program**
*Jeri Milstead and Janice Lanier requested clarification regarding proposed changes.*
Lisa Emrich addressed each comment to the satisfaction of the parties, and no additional language changes were requested.
Chapter 4723-7 Examination and Licensure

- Rule 4723-7-04(B): It is proposed to add language clarifying what type of evidence may be submitted by a foreign educated reciprocity (endorsement) applicant to demonstrate “working knowledge of the English language,” as the lack of clarity has proven confusing to applicants. Unlike exam applicants, endorsement applicants are not required to pass the English proficiency exam, although that is one method of establishing a working knowledge of English. The rationale for the Board not requiring the proficiency exam for endorsement applicants dates back at least eight years and was based on the assumption that an endorsement applicant would have actual working experience as a nurse in the United States. Board members agreed by general consensus to this revision.

- Rule 4723-7-10(B): Jeri Milstead and Janice Lanier requested that language be added clarifying that the RN or APRN applicant complete CE in the RN scope, and the PN applicant complete CE in the PN scope. The requested language has been added.

Chapter 4723-13 Delegation of Nursing Tasks

- Rule 4723-13-02(D)(1): The Ohio Department of Developmental Disabilities (DODD) asked for a correction to the cross-reference, which has been included.

- Rule 4723-13-05(E)(6)(g) and (F)(2)(c): Kim Musgrave, parent and member of the Ohio Nursing Collaboration (consisting of Ohio Family to Family, Ohio DODD, Ohio Department of Medicaid, and parents) requested language to underscore that when delegating a nursing task, a licensed nurse shall consider the total number of delegated nursing tasks to be performed for an individual. This concept is also referenced in Rule 4723-13-07(C)(2), which references the types and number of nursing tasks that will be delegated. The requested language was added. H. Fischer reported that the Board will convene a work group to discuss delegation-related practice questions.

Chapter 4723-27 Medication Administration by Certified Medication Aides

- No interested party comments were received regarding this Chapter.

Non-Five Year Review/Technical Changes

- No interested party comments were received related to new Rules 4723-8-12, 4723-8-13: Consult Agreements, or other technical change rules.
• Rule 4723-16-13(F): The proposed language allows for hearings to be conducted by video conference in the sole discretion of the board hearing committee or hearing examiner, if mutually agreed upon by the parties.

• Rule 4723-26-01(Q): Healthcare Access Now representative Ella Thomas had questions and suggestions for both rule and legislative changes. Ms. Thomas is working with Board legislative liaison T. Dilling on the latter and is planning to participate in upcoming meetings of the new Advisory Group on Certified Community Health Workers. Related to rule language, Ms. Thomas expressed concern that some CHW applicants may no longer have access to high school transcripts and requested that college level transcripts be accepted. Staff clarified that the Board does not require that transcripts be provided with the CHW application. Ms. Thomas also requested that language be added clarifying that when a CHW is performing non-nursing tasks, supervision does not need to be by a RN. This language is added.

H. Fischer reported that she will submit the rules to the CSI in August and file the rules with JCARR in October. The Rules Hearing will be held at the November 2021 meeting.

HEARING EXAMINER’S REPORT AND RECOMMENDATION
Simpson, Valencia Nicole, P.N. 167137 (CASE #19-7147; CASE #20-2579)
Action: It was moved by Erin Keels, seconded by Daniel Lehmann, that the Board modify Conclusions of Law #5, 6, 7, and 8, and modify the Hearing Examiner’s recommendation to dismiss the ORC 4723.28(B)(11) violation set forth in the March 2020 Notice, for the following reasons: MS. SIMPSON admitted that she struck Patient #1 multiple times in the course of practice, and that at the time of the incident, she had been diagnosed with mental health disorders for which she had previously been hospitalized and prescribed medication. The Hearing Examiner recommended practice restrictions and Board monitoring for a period of time, yet the Hearing Examiner inconsistently concluded that MS. SIMPSON does not have an impairment, which the law defines as a condition necessitating Board monitoring and/or practice restrictions. The Board finds that the State has proved by a preponderance of evidence a basis for action under ORC 4723.28(B)(11), that MS. SIMPSON has an impairment that may have contributed to her behavior, and that Board monitoring and practice restrictions are necessary to protect the public within the language of Rule 4723-3-02, OAC.

It was further moved that the Board accept all of the Findings of Fact and remaining Conclusions of Law, and accept the Recommendation, except as previously noted, in the Hearing Examiner’s Report and Recommendation and that MS. SIMPSON’s license to practice nursing as a licensed practical nurse in the State of Ohio be suspended for an indefinite period of time but not less than two (2) years, retroactive to December 17, 2019, with the conditions for reinstatement set forth below, and following reinstatement, MS. SIMPSON’s license to practice nursing as a licensed practical nurse shall be subject to a stayed suspension under the probationary terms and restrictions set forth below for a minimum period of two (2) years including the Temporary Practice Restrictions, set forth below.

SUSPENSION OF LICENSE
MS. SIMPSON’s license is suspended for an indefinite period of time but not less than two (2) years, retroactive to December 17, 2019.

The Board may reinstate MS. SIMPSON’s license if MS. SIMPSON submits a written request for reinstatement and is determined by the Board or its designee to have complied with the Conditions for Reinstatement.

**CONDITIONS FOR REINSTatement**

**MS. SIMPSON shall:**

1. Be determined, by the Board or its designee, to be able to practice as a nurse according to acceptable and prevailing standards of safe nursing care based upon an interview and review of the documentation specified in this Order.

2. Obey all federal, state, and local laws, and all laws and rules governing the practice of nursing in Ohio.

3. Appear in person for interviews with the Board’s designated representative, as requested by the Board or its designee.

4. **Within ninety (90) days immediately prior to requesting reinstatement,** submit a request to the Bureau of Criminal Identification and Investigation (BCII) to conduct a criminal records check of MS. SIMPSON, including a check of Federal Bureau of Investigation (FBI) records, and shall request that BCII submit MS. SIMPSON’s criminal records check to the Board. The Board will not consider a request for reinstatement until MS. SIMPSON’s completed criminal records check, including the FBI check, is received by the Board.

**Educational Requirements**

5. Successfully complete and submit satisfactory documentation of successful completion of the following continuing education, or other comparable course(s) approved in advance by the Board or its designee: fifteen (15) hours Stress and Anger Management, with credit for six (6) hours completed in June 2020. Continuing education required by this Order does not meet the continuing education requirements for license renewal.

6. Complete and submit satisfactory documentation of completion of a nurse refresher course or an extensive orientation approved in advance by the Board or its designee.

**Evaluations**
7. **Within ninety (90) days immediately prior to requesting reinstatement**, at **MS. SIMPSON** shall execute releases to permit the mental health professional to obtain any information deemed appropriate and necessary for the evaluation. The mental health professional shall submit a written opinion to the Board that includes diagnoses, recommendations for treatment and monitoring, any additional restrictions that should be placed on **MS. SIMPSON’s** license, and a statement as to whether **MS. SIMPSON** is capable of practicing nursing according to acceptable and prevailing standards of safe nursing care.

8. Provide the Board with satisfactory documentation of compliance with all aspects of the treatment plan developed by the mental health professional described above until released. Further, the Board may utilize the mental health professional’s recommendations and conclusions from the evaluation as a basis for additional terms and restrictions on **MS. SIMPSON’s** license.

**Reporting Requirements for Suspension Period**

9. Report to the Board, in writing, any violation of this Order within thirty (30) days of the occurrence of the violation.

10. Sign release of information forms allowing health professionals and other organizations to submit the requested documentation directly to the Board.

**Nunnally, Courtney L., R.N. 367244 (CASE #19-8022, #19-2916)**

**Action:** It was moved by Daniel Lehmann, seconded by Sandra Beidelschies, that the Board accept all of the Findings of Fact, Conclusions of Law, and modify the Recommendation in the Hearing Examiner’s Report and Recommendation and that **MS. NUNNALLY**’s license to practice nursing as a registered nurse in the State of Ohio be indefinitely suspended and that the suspension is stayed subject to the probationary terms and restrictions set forth below for a minimum period of two (2) years including the **Temporary Practice Restrictions, unless otherwise approved in advance**, set forth below.

The rationale for the modification is the following: The Board in its expertise has determined that, based upon **MS. NUNNALLY**’s history of Board action and non-compliance, two (2) years of monitoring is necessary to adequately protect the public.

**PROBATIONARY PERIOD**

Upon submitting an application for reinstatement, **MS. NUNNALLY**’s license shall be subject to Probationary Terms and Restrictions for a minimum period of two (2) years.

**PROBATIONARY TERMS AND RESTRICTIONS**
MS. NUNNALLY shall:

1. Obey all federal, state, and local laws, and all laws and rules governing the practice of nursing in Ohio.

This screening shall require a daily call-in process. The specimens submitted by MS. NUNNALLY shall be negative, except for substances prescribed, administered, or dispensed to her by another so authorized by law who has received a complete copy of this Order prior to prescribing for MS. NUNNALLY.

   a. **Prior** to initiating drug screening:

   i. Provide a copy of this Order to all treating practitioners;

   ii. Provide to the Board a list of all treating practitioners, including addresses and telephone numbers; and

Employment Conditions

NUNNALLY does not work in a position within the State of Ohio for which a license to practice nursing is required shall not count toward fulfilling the probationary period imposed by this Order.

9. Within forty-five (45) days of the effective date of this Order, provide her current employer(s) with a copy of this Order, if working in a position in which a license to practice as a nurse is required. MS. NUNNALLY is under a continuing duty to provide a copy of this Order to any new employer prior to accepting employment as a nurse.

10. Have current employer(s), if working in a position where a license to practice nursing is required, submit written reports regarding job performance on a quarterly basis beginning within forty-five (45) days of the effective date of
this Order or beginning within thirty (30) days of working in a position as a nurse, whichever is later.

16. Submit the reports and documentation required by this Order on forms specified by the Board. All reporting and communications required by this Order shall be sent by email to: monitoring@nursing.ohio.gov or by mail to:

17. Verify that the reports and documentation required by this Order are received in the Board office.

18. Inform the Board within five (5) business days, in writing, of any change in employment status or of any change in residential or home address or telephone number.

NUNNALLY is able to practice nursing according to acceptable and prevailing standards of safe nursing care without Board monitoring, based upon an interview with MS. NUNNALLY and review of the reports as required herein.

Sims, Jason A., R.N. 419089 (CASE #19-0083)

Action: It was moved by Nancymarie Phillips, seconded by Erin Keels, that the Board order that the record reflect that, as noted in Respondent’s Objections, the Hearing Examiner find that MR. SIMS knew or should have known the doses of Fentanyl and Midazolam were harmful or potentially harmful to patient #1, as is set forth in the March 2019 Notice. However, the Board did not allege that MR. SIMS violated Rule 4723-4-03(E), and the Board is not basing its Order in whole or in part on a violation of that Rule. Rather, the Board alleged in the Notice, and agrees with the Hearing Examiner, that MR. SIMS’s conduct, in removing 600 mcg of Fentanyl and 6 mg of Midazolam for administration to patient #1, despite the fact that he knew or should have known the doses were harmful or potentially harmful, is below minimum standards of safe care and competency, and as such, violates Section 4723.28(B)(19), ORC and Rules 4723-4-03(B) and 4723-4-03(C), OAC.

**Action:** It was moved by Daniel Lehmann, seconded by Sandra Beidelschies, that the Board grant the State’s Motion to substitute a correctly labeled Exhibit 5. It was further moved that the Board accept all of the Findings of Fact and Conclusions of Law, and modify the Recommendation in the Hearing Examiner’s Report and Recommendation, and that **MS. CLEMENS’s** licenses to practice nursing as a registered nurse and licensed practical nurse in the State of Ohio be suspended for an indefinite period of time with the conditions for reinstatement set forth below, and following reinstatement, **MS. CLEMENS’s** licenses to practice nursing as a registered nurse and licensed practical nurse shall be subject to a stayed suspension under the probationary terms and restrictions set forth below for a minimum period of one (1) year.

5. Pay a fine of five hundred dollars ($500.00), payable online by credit or debit card.

**Educational Requirements**

6. Successfully complete and submit satisfactory documentation of successful completion of the following continuing education, or other comparable course(s) approved in advance by the Board or its designee: ten (10) hours Professional Accountability and Ethics, and five (5) hours Veracity. Tilocco, Denise Katherine, P.N. 083546 (CASE #20-1872, #20-1021; #20-1051)

Action: It was moved by Deborah Knueve, seconded by Nancymarie Phillips, that the Board redact page 44 of State’s Exhibit 12 as it contains patient names in accordance with Section 4723.28(I)(2), ORC. It was further moved that the Board accept all of the Findings of Fact and Conclusions of Law, and modify the Recommendation in the Hearing Examiner’s Report and Recommendation, and that MS. TILOCCO’s license to practice nursing as a licensed practical nurse in the State of Ohio be suspended for an indefinite period of time but not less than three (3) years with the conditions for reinstatement set forth below, and following reinstatement, MS. TILOCCO’s license to practice nursing as a licensed practical nurse shall be subject to a stayed suspension under the probationary terms and restrictions set forth below for a minimum period of three (3) years including the Temporary Narcotic and Temporary Practice Restrictions, set forth below.
The rationale for the modification is the following: The Hearing Examiner recommended a restriction on passing medications. The Board in its expertise has determined that a temporary restriction on administering, handling or calling in prescriptions for narcotics, other controlled substances, and mood-altering drugs is adequate to protect the public.

**SUSPENSION OF LICENSE**

**MS. TILLOCCO**’s license is suspended for an indefinite period of time but not less than three (3) years.

The Board may reinstate **MS. TILLOCCO**’s license if **MS. TILLOCCO** submits a written request for reinstatement and is determined by the Board or its designee to have complied with the Conditions for Reinstatement.

**CONDITIONS FOR REINSTATEMENT**

**MS. TILLOCCO** shall:

1. Be determined, by the Board or its designee, to be able to practice as a nurse according to acceptable and prevailing standards of safe nursing care based upon an interview and review of the documentation specified in this Order.

2. Obey all federal, state, and local laws, and all laws and rules governing the practice of nursing in Ohio.

3. Appear in person for interviews with the Board’s designated representative, as requested by the Board or its designee.

4. **Within ninety (90) days immediately prior to requesting reinstatement,** submit a request to the Bureau of Criminal Identification and Investigation (BCII) to conduct a criminal records check of **MS. TILLOCCO**, including a check of Federal Bureau of Investigation (FBI) records, and shall request that BCII submit **MS. TILLOCCO**’s criminal records check to the Board. The Board will not consider a request for reinstatement until **MS. TILLOCCO**’s completed criminal records check, including the FBI check, is received by the Board.

**Evaluations**

5. **Within ninety (90) days immediately prior to requesting reinstatement,** at **MS. TILLOCCO**’s expense, obtain a substance use disorder evaluation by a substance use disorder professional approved by the Board or its designee and, prior to the evaluation, provide the substance use disorder professional with a copy of this Order. **MS. TILLOCCO** shall execute releases to permit the substance use disorder professional to obtain any information deemed appropriate and necessary for the evaluation. The substance use disorder
professional shall submit a written opinion to the Board that includes diagnoses, recommendations for treatment and monitoring, any additional restrictions that should be placed on MS. TILOCCO’s license, and a statement as to whether MS. TILOCCO is capable of practicing nursing according to acceptable and prevailing standards of safe nursing care.

6. Provide the Board with satisfactory documentation of compliance with all aspects of the treatment plan developed by the substance use disorder professional described above until released. LEESON and review of the reports as required herein.

As indicated above under Employment Conditions, any period during which MS. LEESON does not work in a position within the State of Ohio for which a license to practice nursing is required shall not count toward fulfilling the probationary period imposed by this Order.

This Order shall become effective immediately and is hereby entered upon the Journal of the Board for the 22nd day of July 2021.

Rucker, David C., R.N. 430289 (CASE #19-2510)

**Action**: It was moved by Daniel Lehmann, seconded by Sandra Beidelschies, that the Board grant the State’s motion to substitute Exhibit 7, and grant the State’s motion to file late Objections, and to consider those Objections. It was further moved that the Board modify the Hearing Examiner’s Report and Recommendation as follows: The Board agrees with the analysis set forth in the State’s Objections. The Board has admitted an unredacted version of Exhibit 7 that establishes by a preponderance of evidence that MR. RUCKER provided the urine specimen that tested positive for Fentanyl, and that MR. RUCKER did not have a legal valid prescription for Fentanyl. This was the conclusion reached by the Medical Review Officer who analyzed the specimen and interviewed MR. RUCKER. Further, as noted at page 12 of the Report and Recommendation, it was undisputed that MR. RUCKER exhibited strange behavior following his work shift, including an inability to stay awake, and MR. RUCKER did not provide credible evidence showing why he tested positive for Fentanyl. For these reasons, the Board modified Findings of Fact #16-21 by striking the findings; and modified Conclusions of Law #5 – 7 as set forth in the State’s Objections. It was further moved that the Board accept the remaining Findings of Fact and Conclusions of Law and modify the Hearing Examiner’s recommendation by upholding the Notice of Opportunity for Hearing, and that MR. RUCKER’s license to practice nursing as a registered nurse be REPRIMANDED.

**MR. RUCKER shall:**
1. **Within ninety (90) days of the effective date of this Order**, at MR. RUCKER’s expense, obtain a substance use disorder evaluation by a substance use disorder professional approved by the Board or its designee and, prior to the evaluation, provide the substance use disorder professional with a copy of this Order. MR. RUCKER shall execute releases to permit the substance use disorder professional to obtain any information deemed appropriate and necessary for the evaluation. The substance use disorder professional shall submit a written opinion to the Board that includes diagnoses, recommendations for treatment and monitoring, any additional restrictions that should be placed on MR. RUCKER’s license, and a statement as to whether MR. RUCKER is capable of practicing nursing according to acceptable and prevailing standards of safe nursing care.

2. Provide the Board with satisfactory documentation of compliance with all aspects of the treatment plan developed by the substance use disorder professional described above until released. Further, the Board may utilize the professional's recommendations and conclusions from the evaluation as a basis for additional terms and restrictions on MR. RUCKER’s license.

Nancymarie Phillips voted no. Motion adopted by a majority vote of the Board members present with Donna Hanly, Sandra Ranck, Joanna Ridgeway, and Patricia Sharpnack abstaining.

This Order shall become effective immediately and is hereby entered upon the Journal of the Board for the 22nd day of July 2021.

Smith, Jasmine M., R.N. 470053 (CASE #20-2442)

**Action**: It was moved by Deborah Knueve, seconded by Erin Keels, that the Board accept all of the Findings of Fact and Conclusions of Law, and modify the Recommendation in the Hearing Examiner's Report and Recommendation, and that MS. SMITH's license to practice nursing as a registered nurse in the State of Ohio be suspended for an indefinite period of time, retroactive to July 23, 2020, with the conditions for reinstatement set forth below, and following reinstatement, MS. SMITH's license to practice nursing as a registered nurse shall be subject to a stayed suspension under the probationary terms and restrictions set forth below for a minimum period of three (3) years including the **Temporary Practice Restrictions, unless otherwise approved in advance**, set forth below.

The rationale for the modification is the following: The Board in its expertise has determined that, based on MS. SMITH’S non-compliance with her previous Board action, a six (6) month period of random drug and alcohol screening prior to reinstatement, and a longer period of probationary monitoring is necessary to protect the public.
SUSPENSION OF LICENSE

MS. SMITH’s license is suspended for an indefinite period of time, retroactive to July 23, 2020.

The Board may reinstate MS. SMITH’s license if MS. SMITH submits a written request for reinstatement and is determined by the Board or its designee to have complied with the Conditions for Reinstatement.

CONDITIONS FOR REINSTATEMENT

MS. SMITH shall:

1. Be determined, by the Board or its designee, to be able to practice as a nurse according to acceptable and prevailing standards of safe nursing care based upon an interview and review of the documentation specified in this Order.

2. Obey all federal, state, and local laws, and all laws and rules governing the practice of nursing in Ohio.

3. Appear in person for interviews with the Board’s designated representative, as requested by the Board or its designee.

4. Within ninety (90) days immediately prior to requesting reinstatement, submit a request to the Bureau of Criminal Identification and Investigation (BCII) to conduct a criminal records check of MS. SMITH, including a check of Federal Bureau of Investigation (FBI) records, and shall request that BCII submit MS. SMITH’s criminal records check to the Board. The Board will not consider a request for reinstatement until MS. SMITH’s completed criminal records check, including the FBI check, is received by the Board.

Evaluations

5. Within ninety (90) days immediately prior to requesting reinstatement, at MS. SMITH’s expense, obtain a mental health evaluation from a mental health professional approved by the Board or its designee and, prior to the evaluation, provide the mental health professional with a copy of this Order. MS. SMITH shall execute releases to permit the mental health professional to obtain any information deemed appropriate and necessary for the evaluation. The mental health professional shall submit a written opinion to the Board that includes diagnoses, recommendations for treatment and monitoring, any additional restrictions that should be placed on MS. SMITH’s license, and a statement as to whether MS. SMITH is capable of practicing nursing according to acceptable and prevailing standards of safe nursing care. In the alternative to the above
evaluation, MS. SMITH may begin, or continue with, the outpatient mental health counseling at Meridian, as recommended by Jerrilyn Guy, M.S.Ed., LPC.

6. Provide the Board with satisfactory documentation of compliance with all aspects of the treatment plan developed by the mental health professional, or the alternative outpatient mental health counseling, described above until released. Further, the Board may utilize the mental health professional’s recommendations and conclusions from the evaluation, or any recommendations from Meridian, as a basis for additional terms and restrictions on MS. SMITH’s license.

7. Within ninety (90) days immediately prior to requesting reinstatement, at MS. SMITH’s expense, obtain a substance use disorder evaluation by a substance use disorder professional approved by the Board or its designee and, prior to the evaluation, provide the substance use disorder professional with a copy of this Order. MS. SMITH shall execute releases to permit the substance use disorder professional to obtain any information deemed appropriate and necessary for the evaluation. The substance use disorder professional shall submit a written opinion to the Board that includes diagnoses, recommendations for treatment and monitoring, any additional restrictions that should be placed on MS. SMITH's license, and a statement as to whether MS. SMITH is capable of practicing nursing according to acceptable and prevailing standards of safe nursing care.

8. Provide the Board with satisfactory documentation of compliance with all aspects of the treatment plan developed by the substance use disorder professional described above until released. Further, the Board may utilize the professional's recommendations and conclusions from the evaluation as a basis for additional terms and restrictions on MS. SMITH's license.

SMITH's expense and on the day selected, blood, breath, hair or urine specimens for drug and/or alcohol analysis at a collection site specified by the Board at such times as the Board may request. Upon and after MS. SMITH's initiation of drug screening, refusal to submit such specimen, or failure to submit such specimen on the day she is selected, or in such a manner as the Board may request, shall constitute a
violation of a restriction placed on a license for purposes of Section 4723.28(B), ORC. This screening shall require a daily call-in process. The specimens submitted by MS. SMITH shall be negative, except for substances prescribed, administered, or dispensed to her by another so authorized by law who has received a complete copy of this Order prior to prescribing for MS. 4. Provide the Board with satisfactory documentation of compliance with all aspects of the treatment plan developed by the mental health professional, or the alternative outpatient mental health counseling, described above until released.
